

REPLACEMENT CARTRIDGE FOR CFS HEADS AND COMPATIBLE HEADS

- OEM quality replacement for CFS filter manifolds
- Eliminates bad tastes and odors
- Can reduce chlorine and other objectionable contaminants
- Reduces particulate, sediment, and scale
- Decreases machine maintenance by reducing lime scale build-up
- NSF Standard 42 for material requirements only
- New manifolds for easy installation

Description

A cost-effective water filtration system for food service applications: ice machines, fountain beverages, steam ovens, and drinking water. These systems offer manifold and sanitary quick-change cartridges to fit the existing CUNO CFS brand installations and can also support new filtration installations. CFS is the reliable choice for water filtration to prevent unwanted troubles caused by sediment, scale, or taste and odor existing in CUNO installations.

Ice Machine Filtration

Nu-Plus CFS

Packaging:

Cartridges

CFS-S	4623-10
CFS-SS	4623-11
CFS-TOP	4623-12
CFS-STOP	4623-13

Heads

Single Head	4623-01
Twin Head	4623-02
Triple Head	4623-03
Twin Series	4623-06

DESCRIPTION	FUNCTION	REPLACES	RATING
CFS-S	Sediment – 5 micron	CFS 8110	1.67 gpm - 14,000 gallons
CFS-SS	Sediment – 5 micron/phosphate	CFS 8110-S	1.67 gpm - 14,000 gallons
CFS-TOP	Carbon Block - .5 micron	CFS 8112, 8112X, 8720	1.67 gpm - 14,000 gallons
CFS-STOP	Carbon Block - .5 micron/phosphate	CFS 8112S, 8720-S, 8812X-S	1.67 gpm - 14,000 gallons
